

Precyse Solutions™

FOR IMMEDIATE RELEASE:

Precyse Solutions' is the Choice of Nation's Top Hospitals for Outsourcing Needs

King of Prussia, PA, August XX, 2002 – Some of the best hospitals in the nation are turning to Precyse Solutions, an industry leader in health information management (HIM) services, for solutions to their HIM problems. Precyse announced today that it has partnered with four of the country's top hospitals to provide outsourced assistance in various areas, including coding supervision, onsite coding and oncology abstracting.

The four facilities—Mayo Clinic, Johns Hopkins Hospital, Cleveland Clinic and Massachusetts General Hospital—are all currently ranked in the top five on *U.S. News & World Report's* **“America's Best Hospitals List.”**

Both Mayo Clinic and Johns Hopkins Hospital have selected Precyse Solutions to provide assistance in oncology abstracting. Precyse Solutions' oncology associates, each of whom is certified with extensive experience in the field of oncology data management, work on-site at these facilities to help hospital staff members organize and manage their abstracting workload. The partnership has resulted in increased time efficiency and decreased costs.

Precyse Solutions supplies onsite coding assistance to Massachusetts General Hospital and Cleveland Clinic. As the hospitals' HIM outsource partner, Precyse Solutions' team of specialists—all of whom are credentialed and receive ongoing training and quality reviews—concentrate on improving the turnaround time of, and accessibility to, coded records. Precyse Solutions has been able to reduce the costs generated by delayed billings at these two facilities.

Precyse Solutions currently has a business presence in 42 states in the U.S., with plans to enter the remaining states—Alaska, Hawaii, Minnesota, Nebraska, New Mexico, North Dakota, South Dakota and West Virginia—in the near future. In addition to its Health Information Management Services, the company also offers specialty support services, such as JCAHO Survey Preparation, purges, loose filing, assembly & analysis, and client-defined projects.

About Precyse Solutions

Precyse Solutions is an industry-leading provider of quantifiable, outsourced Health Information Management (HIM) services to U.S. based hospitals and healthcare organizations. Its services include medical transcription, coding, oncology data management, HIM consulting, and interim management and departmental outsourcing. Healthcare providers utilize the company's services to streamline their capture and coding of clinical information, reduce their administrative operating costs, improve cash flows and maintain regulatory compliance. Precyse Solutions is privately held and headquartered in King of Prussia, PA. For more information, contact 1-800-555-2311, email info@precysesolutions.com or visit www.precysesolutions.com.
